SUMMARY

I am a graphic designer and developer who focuses on illustration and media construction. I ensure that whatever I do receives my sense of care and dedication. I excel in solo and group work and I try to bring a alternative perspective or approach to every situation. I have special interests and skills in multi-media and social media including graphic design and photography. I have worked on a t-shirt project for a Walmart Beer marketing plan and a potential website for the Northwest Arkansas Food Innovation Center, both of which occurred at the University of Arkansas. Available for full-time employment and will consider project work with full-time potential.
